

TOKENOMICS :

DUAL TOKEN MODEL

DPS & DGT (DAPP GOVERNANCE TOKEN) are both utility tokens to be used within the Dapp Play Store ecosystem used for payment unlocking features, staking and voting. Dps tokens are for the traditional investor who wish to buy and sell and also get % of transaction fees staking ability and payments across the ecosystem

DGT tokens are the staked version of DPS tokens which unlock a plethora of features DGT tokens are not tradable

DPS with 100,000,000 total supply is the primary token of Dapp Play Store ecosystem for payments, discounts

DGT is the governance token which you get rewarded once staked DPS tokens these governance tokens allow you to

- ✓ **Vote**
- ✓ **Create Plugins & APIs**
- ✓ **Earn rewards**
- ✓ **Unlock gated channels**
- ✓ **Independent coding**
- ✓ **Hire professional**
- ✓ **% off transaction fees**
